

If you are unable to keep this appointment, please notify our office at least 24 hours in advance. If cancellation is required with less than 24 hours notice or due to the ingestion of caffeine, a late cancellation fee of approximately \$145.00 may still apply. This is because the isotopes required to perform the test are perishable and are ordered specifically for you in advance.

**16542 Ventura Blvd., Suite 402
Encino, CA 91436
(818) 782-5041**

Scheduled date(s) and time(s):

Please arrive 15 minutes prior to your appointment. We know that parking is a challenge. The entrance to our parking lot is off Rubio. We will give you a 25% discount with our validation and valet is provided at no additional charge.

Finally, we understand that you may wish to have a family member accompany you to the office. Due to the limited space in our nuclear lab and possible exposure to radioactive materials, we kindly ask that your family member wait in our comfortable waiting room.

Our staff will answer any additional questions you may have.
